### HARRY PERRY IS OUSTED

Mayor of Smoky Row Convicted of Stuffing Ballot Box in Election.

Harry Perry, since April mayor of Topeka's "Smoky Row," was arrested by his chief of police, "Billy" Anderson, this morning, taken before Judge Hugh MacFarland in the Chesterfield hotel court and convicted of stuffing the ballot boxes at the last election. He was ousted from office after a heated trial and today the "Bottoms" is without a mayor. Chief of Police Anderson and Dog Catcher Dick Hodgins are in power.

The original arrest was made by the chief of police because it was asserted that Mayor Perry collected hush money from the "characters" in the district and failed to split the proceeds with his chief and dog catcher. It was charged also that Perry had allowed voters to case their ballots under the rule of "Smoky Row" was not allowed to enter a booth unless they can prove a jail or penitentiary record.

Mayor Corwin of Greater Topeka was a witness. He claimed he was testified to vote three times, under the "law" and he voted twice for Anderson Perry's opponent, and once for Perry. Jess Willard, former heavyweight champion, was caught on the street and dragged in as a witness. He confessed voting six times but would not remember whom he voted for.

Dick Hodgins was sworn in as a witness and then disqualified because of a "Smoky Row" law that provides no one is allowed to testify if he is sober.

The prosecution was represented by Ed Rooney and the defense by Arch McKeever. Judge MacFarland had a difficult time maintaining order during the trial. Mayor Perry attempted to rout the trial with some of his voters but he was met with overpowering resistance.

Another election will be held soon. Perry paid a heavy fine following his ouster from office.

A REAL HOUSE SHORTAGE.

Real Estate Men Favors Putting Off Building Until Spring.

The committee representing the building and loan associations, the real estate operators and the Chamber of Commerce directors, is ready to report that there is a real shortage of houses in Topeka.

"The question in my mind," said W. T. Dawson, one of the real estate representatives on the committee, "is whether it is wise to start in on this building project, at this season of the year. It seems to me it might be better to wait until next spring. We all admit that there is a house shortage and that more houses should be built."

The committee is to report on the house shortage and their opinion on the proposed building project of the Home Builders' Finance company of Kansas City to the board of the directors of the Chamber of Commerce. It is not probable that a meeting of the directors will be held until next week.

The real estate, building and loan and directors' committee can report direct to the chairman of the Chamber of Commerce housing committee, William Horley, if they are ready," said A. L. Olinger, secretary of the Chamber of Commerce, this afternoon.

Elmer F. Strain, president of the Chamber of Commerce, is in Kansas City today on business.

Saltan, Oct. 29.—Barlan Hawk, 18, who two weeks ago placed strychnine in the oatmeal at his home, seriously poisoning his mother, H. A. Hawk, is suffering from dementia praecoxia, "practically hopeless form of loss of mind and is not responsible for his actions," according to Dr. Archibald Church, Chicago alienist, before whom young Hawk was recently examined. Doctor Church in his letter to W. B. Crowther, county attorney, recommended that he be confined in the state hospital for the insane.

SLEMP IN STOCK SHIPMENTS.

Drop of 2,300 Cars in Kansas From July 1 to October 1.

Livestock shipments in Kansas slumped more than 2,300 cars during the three months' period from July 1 to October 1, according to figures announced today by the court of industrial relations. The comparisons are for the same periods of 1919-20.

Last year Kansas stockmen shipped 27,665 cars to the markets during the three months. This year shipments totaled 25,353 cars. Scarcity of livestock as well as the car situation affected the movement of cattle. It is believed. Eastern lines of the Santa Fe showed the only increase.

Following are the comparative figures:
